

Making Moves

Activating the Power of the Connected Vehicle

Connected vehicle technology provides you deeper visibility into your fleet, allowing you to make effective, analytic driven improvements. As you cycle vehicles, consider models with the latest connected capabilities to help drive change within your organization.

Seamless Integration

- Cutting Edge Information, All Provided Effortlessly Via the Vehicle
- Eliminate Your Installation Related Administration & Costs
- No Aftermarket Devices Required
- Visibility into Your Vehicles' Movement as Soon as they Leave the Factory
- One Platform for All Fleet-related Data

Lower Cost of Ownership

- Gain Visibility to the Data to Manage Areas Never Before Possible
 - Remaining Brake Life
 - Remaining Oil Life
 - Pre-Delivery Locations
 - And More!
- Leverage the Power of Connected Vehicle Analytics to Improve Your Fleet's Safety Profile
- Proactively Manage Maintenance & Reduce Operating Costs & Downtime
- Drive Operational Efficiencies Within Your Core Business

Easy to Use & Understand

- Connected Vehicle Data Available in Real Time
- Focus on What You Need to Manage Through a Simplified Interface
- Easily Identify the Behaviors Having the Greatest Impacts & Opportunity Within Your Fleet
- Reduced Administrative Overhead
- Compatibility Across a Variety of Telematics Providers & OEMs
